SB 146		X

PLEASE SUPPORT:

SB 63—Revise law related to the use of motion-tracking devices while hunting, Sen. Pat Flowers (D-Bozeman), Hearing, Senate Fish and Game, 1/21, 3pm, Support. This bill supports fair chase hunting by prohibiting the use of motion tracking technology and devices within the same calendar day that a person is hunting. PLEASE OPPOSE:

SB 42—Provide for the partisan election of judges and justices, Sen. Daniel Emrich (R-Great Falls), Awaiting E.A., Senate Judiciary, Oppose. This bill would force both Montana District Court and Montana Supreme Court judges to identify a party when they are running for a judicial position. This unnecessary bill would inject an extreme amount of partisanship into our judicial system, which by its very nature should only apply the facts and the law, and not include partisan considerations. SB 42 is an extreme threat to the independent judiciary, the rule of law, and the ability for Montana citizens to pursue justice in our court system. SB 52—Create a Montana Court of Chancery, Sen. Tom McGillvray (R-Billings), Awaiting Hearing, Senate Judiciary, Oppose. This bill would create a special court, composed entirely of individuals appointed and funded by the governor, for the purposes of hearing constitutional cases, land use cases, and business disputes. This bill would divorce impartiality from decisions by allowing for a governor’s hand-picked judges to decide major constitutional cases, rather than the Montana Supreme Court (which is elected by the people). SB 52 also creates additional procedural hurdles by requiring multiple appeals, and would cost the state additional funds by having to create an entirely new court. Contact: Derf Johnson, MEIC, 406-581-4634, djohnson@meic.org, or Kearstyn Cook, MCV, 406-426-2422, kearstyn@mtvoters.org.

SB 81—Revise Lease of State Lands for Underground Gas Storage, Sen. Josh Kassmier (R-Fort Benton), Awaiting Hearing, Senate Energy, Technology, & Federal Relations, Oppose. This bill would expand gas storage laws to allow for carbon capture and sequestration (CCS) projects on state public lands. This statute was designed for natural gas (methane) storage, and is not suited to manage risks that CCS could pose to the public, including pipeline rupture and CO2 leakage that can cause asphyxiation and death. CCS poses risks to our health, safety and working landscapes. Bonding must be assessed proportionately to the volume of gas to be stored, and the arbitrary \$20,000 bond cap would be unacceptably low to account for high risks with very large CCS projects. Contact: Nick Fitzmaurice, MEIC, 406-534-9307, nfitzmaurice@meic.org, or Gusty Catherin-Sauer, NPRC, 406-869-1911, gusty@northernplains.org.

SB 146—Creating the Private Property Protection Act, Sen. Becky Beard (R-Elliston), Awaiting Hearing, Senate Judiciary, Oppose. This bill challenges local authority by constricting land use regulation to a narrow review of impacts to public health and safety, and limits denial of land use or development to instances in which there is no possible other mitigation. This could lead to elimination of most zoning and subdivision regulations, threatening agricultural and environmental protections, and hinder local growth planning and affordable housing efforts.
